

Office 365: Envisioning & Strategy Workshop

Most businesses view Office 365 as simply cloud-hosted email, instant messaging and a company intranet website. Making the transition to Office 365 can be challenging when you don't know how the cloud can improve your business, increase productivity and truly modernize your workplace.

Empower Employees

Provide employees the tools they prefer to be productive anytime, anywhere and on any device.

Enable true collaboration across your business by leveraging the right tools, at the right time, to create and share ideas, and information.

Provide peace of mind to employees and business owners, knowing that the most advanced enterprise-grade security is protecting your data.

86% of Office 365 customers never see past email, instant messaging, or websites.

Optimize Operations

Maximize technology investments and enable your IT department to evolve to your business needs.

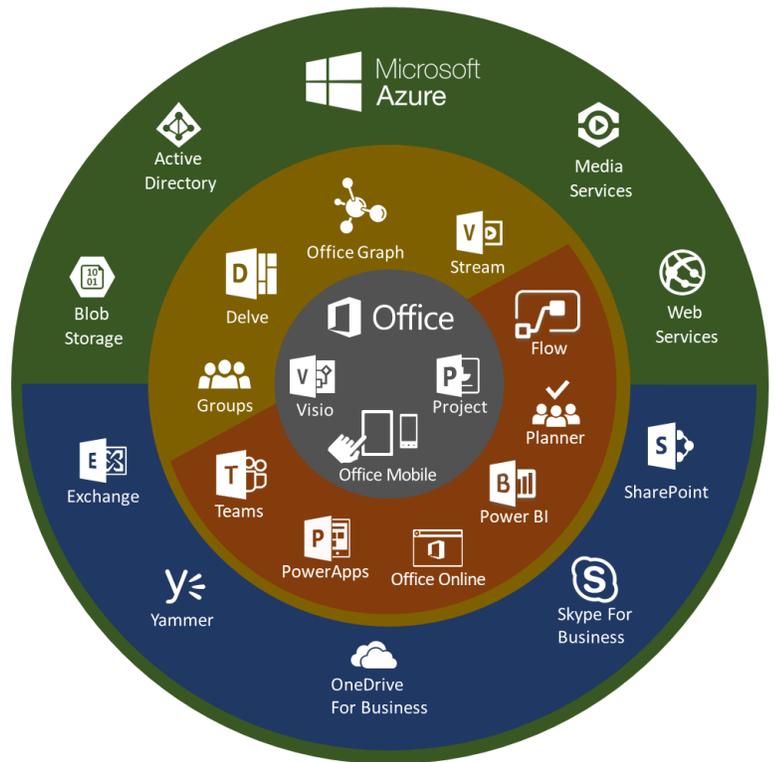

Eliminate isolated processes and decentralize information by allowing automation and workflow to improve efficiency.

Today's businesses need to provide a modern workplace to attract and retain top talented employees as well as encourage forward thinking that will help them grow.

Why this workshop matters

Office 365 is no longer a cloud alternative for email, instant messaging and websites. In fact, 86% of businesses that have moved to Office 365 have failed to see past using only these features in the cloud.

To maximize the value in Office 365, businesses need to understand how to leverage the full capabilities of the cloud.

What this workshop does

Identify business drivers by gaining insights into what drives growth and efficiency and what pain points currently hold you back.

Discover operations by visualizing how your business gets things done today and the tools and processes that are used across your employees.

Map business to cloud capabilities by seeing how Office 365 fits into your operations and workflows to improve collaborative productivity.

Define your cloud adoption strategy by seeing the big picture to how specific Office 365 services can align with your business objectives.

What this workshop provides

Direct access to subject matter experts in designing and deploying Office 365 solutions for SMBs and world-wide enterprises across multiple industries.

Hands-on experience for your employees with Office 365 features and capabilities that are specific to your business needs.

An Office 365 Cloud Adoption Strategy tailored for your business that guides you to adopting the right cloud services at the right time, to maximize your Office 365 investment.
